1. The following is an examiner's statement of reasons for allowance:

The present invention pertains an apparatus and a method for customizing and monitoring multiple interfaces. The prior arts of record, however, do not teach the apparatus and the method comprises the feature of connecting a first interface to a pair of master sources, connecting a second interface to a plurality of target interfaces, connecting a third interface to a second controller for coupling a plurality of predefined control signals, providing a first multiplexer coupled between the pair of master sources and the second interface to the plurality of target interfaces, providing a pair of second multiplexers coupled between the second interface to the plurality of target interfaces and a respective one of the pair of master sources, utilizing a pair of redundant selector functions for coupling a select signal to the first multiplexer for selecting one of the plurality of target interfaces, and utilizing a pair of redundant attention monitor functions for monitoring attention signals for each of the plurality of target interfaces. Hence the prior arts of record do not anticipate nor render obvious the claimed inventions. Thus, claims 1-20 are allowable over the prior arts of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
